Individual Placement Descriptor***

Trust	Frimley Park Hospital NHS Foundation Trust
Site	Frimley Park Hospital
Intrepid Post Code (or local post number if Intrepid N/A)	KSS/RDU01/030/F2/001 (POST 01)
Programme Codes	
Placement details (i.e. the specialty and sub-specialty)	Emergency Medicine (N/A)
Department	Department of Emergency Medicine
Type of work to expect and learning opportunities	The Foundation Doctor will work as part of a full shift pattern for junior doctors alongside FY1, ST1 and StR grade doctors seeing all acuities of patients in all age groups. There will be the opportunity to work in Resus, Majors, Minors and Paeds. There will be the opportunity to perform all the core procedures, ample time for SLEs and dependant on shift patterns the chance to attend the weekly junior doctors teaching
Where the placement is based	Emergency Department at Frimley Park Hospital
Clinical supervisor(s) for the placement	Mr P Redman, MR E Behn, Lt Col I Gurney, Lt Col J Gibbs, Dr E Edge. Dependant on allocation at beginning of year.
Main duties of the placement	To see, assess and treat all acuities of emergency presentation in all age groups
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Other than hand-over rounds twice a day, the work is ED shop-floor based seeing unselected patients in one of the 4 areas of the department
Local education provider (LEP) / employer information	Frimley Park Hospital NHS Foundation Trust is a major district general hospital located in Surrey, close to the Hampshire and east Berkshire borders. It was built in 1974 to provide a full range of district general hospital services for the population of north east Hampshire and west Surrey replacing a number of cottage hospitals. Its catchment population at that time was around 170,000. Constant development in the surrounding area has seen this figure rise steadily to more than 400,000 today, including parts of east Berkshire, and this figure is expected to grow further. Since 1996 the Trust has hosted a Ministry of Defence Hospital Unit, with military staff fully integrated with NHS colleagues across the hospital.

<https://www.nhseportfolios.org/Anon/Login/Login.aspx>

Due to its consistently strong performance over several years, Frimley Park Hospital became a foundation trust on 1 April 2005. As a foundation trust, it is accountable to its local community and aims to have representative membership of its catchment area, with members providing feedback to the Trust on the services that it provides.

During the past year Frimley has been quite literally building for the future. The face of Frimley Park has changed with the building at the front of the hospital of the state of the art new Emergency Department, helipad and day surgery unit. The £22m development, which is nearing completion, will equip the hospital to function as a trauma unit for many years to come.

A further £4m investment in the new cardiology wing, and accreditation as both a regional heart attack centre and hub for vascular surgery, have all underlined the hospital's credentials as a hyper acute centre.

*It is important to note that this description is a typical example of the placement and may be subject to change.

Site	Frimley Park Hospital
Intrepid Post Code (or local post number if Intrepid N/A)	KSS/RDU01/800/F2/001 (POST 16)
Programme Codes	
Placement details (i.e. the specialty and sub-specialty)	General Practice
Department	General Practice
Type of work to expect and learning opportunities	Predominantly clinic based. Practices aim to provide a brief (several day) induction/ direct supervision period. FY2 then move to running their own clinics under indirect supervision This provides a wide range of learning opportunities. With reference to the Foundation Programme Curriculum, there are particular opportunities in Relationship and communication with patients, Good clinical care and Patients with long-term conditions
Where the placement is based	There are currently 15 practices around Frimley Park Hospital that offer GP placements for the Foundation Programme. Names of practices available on request
Clinical supervisor(s) for the placement	There are currently 18 clinical supervisors in the practices that offer GP placements for the Foundation Programme. Names of practices available on request
Main duties of the placement	To work as a training doctor within the Primary Healthcare Team. Service commitment is predominantly in running own clinics within the practices. The focus will tend to be on acute illness and new presentations although there is good opportunity to improve understanding of long-term conditions. The placement does involve weekend shifts in the A&E department at Frimley Park Hospital
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	10 session week with additional A&E shifts Sessions nominally 08:30 – 12:30 (morning) and 14:00 – 18:00 (afternoon) One group tutorial session per week One flexible education (private study) session per week

The face of Frimley Park has changed with the building at the front of the hospital of the state of the art new Emergency Department, helipad and day surgery unit. The £22m development, which is nearing completion, will equip the hospital to function as a trauma unit for many years to come.

A further £4m investment in the new cardiology wing, and accreditation as both a regional heart attack centre and hub for vascular surgery, have all underlined the hospital's credentials as a hyper acute centre.

*It is important to note that this description is a typical example of the placement and may be subject to change.

Individual Placement Descriptor***

Trust	Frimley Park Hospital NHS Foundation Trust
Site	Frimley Park Hospital
Intrepid Post Code (or local post number if Intrepid N/A)	KSS/RDU01/800/F2/002 (POST 17)
Programme Codes	
Placement details (i.e. the specialty and sub-specialty)	General Practice
Department	General Practice
Type of work to expect and learning opportunities	Predominantly clinic based. Practices aim to provide a brief (several day) induction/ direct supervision period. FY2 then move to running their own clinics under indirect supervision This provides a wide range of learning opportunities. With reference to the Foundation Programme Curriculum, there are particular opportunities in Relationship and communication with patients, Good clinical care and Patients with long-term conditions
Where the placement is based	There are currently 15 practices around Frimley Park Hospital that offer GP placements for the Foundation Programme. Names of practices available on request
Clinical supervisor(s) for the placement	There are currently 18 clinical supervisors in the practices that offer GP placements for the Foundation Programme. Names of practices available on request
Main duties of the placement	To work as a training doctor within the Primary Healthcare Team. Service commitment is predominantly in running own clinics within the practices. The focus will tend to be on acute illness and new presentations although there is good opportunity to improve understanding of long-term conditions. The placement does involve weekend shifts in the A&E department at Frimley Park Hospital
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	10 session week with additional A&E shifts Sessions nominally 08:30 – 12:30 (morning) and 14:00 – 18:00 (afternoon) One group tutorial session per week One flexible education (private study) session per week
Local education provider (LEP) / employer information	Frimley Park Hospital NHS Foundation Trust is a major district general hospital located in Surrey, close to the

Hampshire and east Berkshire borders. It was built in 1974 to provide a full range of district general hospital services for the population of north east Hampshire and west Surrey replacing a number of cottage hospitals. Its catchment population at that time was around 170,000. Constant development in the surrounding area has seen this figure rise steadily to more than 400,000 today, including parts of east Berkshire, and this figure is expected to grow further.

Since 1996 the Trust has hosted a Ministry of Defence Hospital Unit, with military staff fully integrated with NHS colleagues across the hospital.

Due to its consistently strong performance over several years, Frimley Park Hospital became a foundation trust on 1 April 2005. As a foundation trust, it is accountable to its local community and aims to have representative membership of its catchment area, with members providing feedback to the Trust on the services that it provides.

During the past year Frimley has been quite literally building for the future. The face of Frimley Park has changed with the building at the front of the hospital of the state of the art new Emergency Department, helipad and day surgery unit. The £22m development, which is nearing completion, will equip the hospital to function as a trauma unit for many years to come.

Clinical supervisor(s) for the placement	Mr P Redman, MR E Behn, Lt Col I Gurney, Lt Col J Gibbs, Dr E Edge. Dependant on allocation at beginning of year.
Main duties of the placement	To see, assess and treat all acuities of emergency presentation in all age groups
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Other than hand-over rounds twice a day, the work is ED shop-floor based seeing unselected patients in one of the 4 areas of the department
Local education provider (LEP) / employer information	Frimley Park Hospital NHS Foundation Trust is a major district general hospital located in Surrey, close to the Hampshire and east Berkshire borders. It was built in 1974 to provide a full range of district general hospital services for the population of north east Hampshire and west Surrey replacing a number of cottage hospitals. Its catchment population at that time was around 170,000. Constant development in the surrounding area has seen this figure rise steadily to more than 400,000 today, including parts of east Berkshire, and this figure is expected to grow further. Since 1996 the Trust has hosted a Ministry of Defence Hospital Unit, with military staff fully integrated with NHS colleagues across the hospital.

	<p>Due to its consistently strong performance over several years, Frimley Park Hospital became a foundation trust on 1 April 2005. As a foundation trust, it is accountable to its local community and aims to have representative membership of its catchment area, with members providing feedback to the Trust on the services that it provides.</p> <p>During the past year Frimley has been quite literally building for the future. The face of Frimley Park has changed with the building at the front of the hospital of the state of the art new Emergency Department, helipad and day surgery unit. The £22m development, which is nearing completion, will equip the hospital to function as a trauma unit for many years to come.</p> <p>A further £4m investment in the new cardiology wing, and accreditation as both a regional heart attack centre and hub for vascular surgery, have all underlined the hospital's credentials as a hyper acute centre.</p>

NHS Hospitals	Frimley Park Hospital
Introduction to Frimley Park Hospital	<p>Frimley Park Hospital serves more than 400,000 people across north-east Hampshire, west Surrey and east Berkshire, although its catchment for some services such as emergency vascular and heart attacks is much wider.</p> <p>Frimley Park Hospital is proud to be the first hospital in England to be rated 'Outstanding' by the Care Quality Commission in September 2014.</p> <p>In addition to the main hospital site at Frimley, Frimley Park Hospital runs outpatient and diagnostic services from Aldershot, Farnham, Fleet and Bracknell, bringing a range of services closer to these communities. From 1st October 2014, following the acquisition of services are also delivered from two other hospital sites – Heatherwood Hospital in Ascot, and Wexham Park Hospital in Slough. All three hospital sites are incorporated within Frimley Health NHS Foundation Trust.</p>

	<p>Since becoming one of the first NHS hospital trusts in the country to achieve foundation status in 2005, Frimley Park Hospital has been able to use surpluses to invest in patient services. With its new multi-million pound emergency department, which is believed to include one of the biggest resus units in the country plus purpose built day surgery unit above and a helipad, the hospital also offers a dedicated cardiology wing housing an accredited regional heart attack centre providing primary angioplasty, the gold standard emergency treatment for heart attacks, 24 hours a day, seven days a week.</p> <p>Frimley Park's maternity unit has an enviable reputation as one of the best in London and the South East. The unit was awarded the highest level 3 safety rating in the latest CNST assessment and was ranked joint top nationally in the latest CQC survey of women's experiences.</p> <p>Frimley Park Hospital has achieved NHSLA level 3 safety ratings for both acute trust and maternity services. Independent health assessor Dr Foster Intelligence named Frimley Park as Hospital Trust of the Year 2013, South of England in its Hospital Guide .</p> <p>Our friendly, caring and professional staff constantly strive to offer the best possible hospital experience for patients. In the last national staff survey, staff were rated as the most motivated of any hospital in the NHS. And staff at Frimley Park Hospital rated their hospital as one of the best in the country as a place to work or receive treatment in the latest national NHS Staff Survey.</p> <p>Frimley Park Hospital is proud to host a Ministry of Defence Hospital Unit with military surgical, medical and nursing personnel fully integrated with the hospital's NHS staff providing care to patients in all specialties.</p>
Information on Hospital Sites	<p>Frimley Park Hospital is one of the sites making up Frimley Health NHS Foundation Trust which also incorporates Wexham Park and Heatherwood hospitals.</p> <p>Frimley Park Hospital is 5 minutes walk from Frimley with the usual local amenities including a supermarket and a high street with shops, restaurants, chemist, post office and pub. Nearby Camberley, Guildford, Farnham and Windsor are easily accessible with more nightlife and cultural activities.</p>
Transport Links	<p>There is a fast train service to London from near by Farnborough. There is a local station in Frimley and an extensive bus network stops at the hospital. The hospital is situated just off junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast.</p>
Parking	<p>There is on-site parking for doctors at a modest cost.</p>
Local Amenities	<p>Camberley (approx 3 miles) has all facilities associated with a busy town and an entertainment hub for eating, cinema, and bowling.</p>
Postgraduate Centre	<p>There is an excellent purpose built Postgraduate Education Centre which is the hub for Medical Staff. The PGEC has its own restaurant which is well used</p>

	by medical staff in the Hospital and local General Practitioners. All of the seminar rooms are well furnished and equipped. The Centre also has a purpose built simulation suite. The lecture theatre, skills room and seminar rooms all have live links to theatres, endoscopy and radiology.
Library facilities	The Health Services library is situated above the PGEC. It provides a wide range of services and also houses a PC suite. There is 24 hour access to the HSL and its IT.
IT Facilities	There are facilities in PGEC & HSL.
Other facilities	There is an on-site nursery available to staff.
Doctors' Mess	There is a well-equipped, purpose built doctor's mess in the middle of the hospital grounds. A small on-site gym is available to staff.
Trainee Life	Every year we publish the Rough Guide to Foundation Training at Frimley Park. This has all the most up-to-date tips from out going Foundation doctors to support each training post. There is a social induction in early August for all new Foundation doctors, involving evening events such as a BBQ and an evening of bowling, offering a chance to meet your peers.

Placement details (i.e. the specialty and sub-specialty)	PSYCHIATRY, EARLY INTERVENTION IN PSYCHOSIS, CHILDREN AND YOUNG PEOPLE'S SERVICE (CYPS) DIRECTORATE
Department	The Surrey and Borders Partnership NHS Trust was created on April 1, 2005, to provide Psychiatric and Learning Disability services for the whole county of Surrey as well as part of North East Hampshire and Croydon, and achieved Foundation status on May 1, 2008. The Abraham Cowley Unit covers a population of circa 845,000 in the North West of the Trust. www.sabp.nhs.uk .
Type of work to expect and learning opportunities	<p>This is a full time Foundation Year Two post with the Early Intervention in Psychosis Team which covers West Surrey and North East Hampshire. The principal service provided by the team is assertive community outreach for people between the ages of 14-35 with an early psychotic illness. All common psychiatric disorders will be experienced in these young people. Most of the work undertaken will be in conjunction with/accompanied by the highly experienced multi-disciplinary team, and consideration will always be made of the training level of an FY2 doctor.</p> <p>The team comprises:</p> <ul style="list-style-type: none"> 1.0 WTE Consultant 1.4 WTE Specialty Doctors 1.0 WTE Core Psychiatry Trainee (CT3) (allocations permitting) <p>Psychologists, occupational therapists, nurses, community support workers and social workers.</p> <p>Educational Objectives for FY2 Trainee:</p> <ul style="list-style-type: none"> • Learn the basic skills in assessment, diagnosis and management of common psychiatric disorders. • Learn about risk assessment for staff and clients in the community. • Learn basic psychopharmacology and gain experience in using common psychotropic drugs. • Gain experience in working with a multi-disciplinary team and in time management. • Learn the basics of risk assessment and keeping proper medical documentation for outpatients. • Gain experience in drafting reports, summaries and letters. • Gain experience in managing acute psychiatric emergencies. • Develop basic competence in the use of the Mental Health Act. • Understand the range of psychological and social treatments in Psychiatry.

	<p>Education and Training</p> <ul style="list-style-type: none"> • Individual supervision will be provided by the approved Named Clinical Supervisor for one hour per week. • The hospital teaching programme runs on a Friday morning. Trainees will be expected to attend regularly and at times present at Journal Clubs and Case Presentations. • Attendance at weekly Balint Group on Friday morning is mandatory. • Attendance at the FPH FY2 Teaching Programme one day a month from September to May inclusive is mandatory, dates TBA. • All Foundation study leave is administered for cost and appropriateness by FPH but study leave forms must be approved by Dr. Sirohi for absence and, also, by Maggie Reynolds, before final submission to FPH.
<p>Where the placement is based</p>	<p>The post is based at the The Base, St. Peter's Hospital Site, Guildford Road, Chertsey, KT16 0AE. The FY2 teaching takes place at Frimley Park Hospital.</p>
<p>Clinical supervisor(s) for the placement</p>	<p>DR. GLENN CORNISH, CONSULTANT PSYCHIATRIST.</p>

<p>Local education provider (LEP) / employer information</p> <p>Introduction to Frimley Park Hospital</p>	<p>The employer for this post is Frimley Health NHS Foundation Trust</p> <p>Frimley Park Hospital serves more than 400,000 people across north-east Hampshire, west Surrey and east Berkshire, although its catchment for some services such as emergency vascular and heart attacks is much wider.</p> <p>Frimley Park Hospital is proud to be the first hospital in England to be rated 'Outstanding' by the Care Quality Commission in September 2014.</p> <p>In addition to the main hospital site at Frimley, Frimley Park Hospital runs outpatient and diagnostic services from Aldershot, Farnham, Fleet and Bracknell, bringing a range of services closer to these communities. From 1st October 2014, following the acquisition of a neighbouring trust, services are also delivered from two other hospital sites – Heatherwood Hospital in Ascot, and Wexham Park Hospital in Slough. All three hospital sites are incorporated within Frimley Health NHS Foundation Trust.</p> <p>Since becoming one of the first NHS hospital trusts in the country to achieve foundation status in 2005, Frimley Park Hospital has been able to use surpluses to invest in patient services. With its new multi-million pound emergency department, which is believed to include one of the biggest resus units in the country plus purpose built day surgery unit above and a helipad, the hospital also offers a dedicated cardiology wing housing an accredited regional heart attack centre providing primary angioplasty, the gold standard emergency treatment for heart attacks, 24 hours a day, seven days a week.</p> <p>Frimley Park's maternity unit has an enviable reputation as one of the best in London and the South East. The unit was awarded the highest level 3 safety rating in the latest CNST assessment and was ranked joint top nationally in the latest CQC survey of women's experiences.</p> <p>Frimley Park Hospital has achieved NHSLA level 3 safety ratings for both acute trust and maternity services. Independent health assessor Dr Foster Intelligence named Frimley Park as Hospital Trust of the Year 2013, South of England in its Hospital Guide .</p> <p>Our friendly, caring and professional staff constantly strive to offer the best possible hospital experience for patients. In the last national staff survey, staff were rated as the most motivated of any hospital in the NHS. And staff at Frimley Park Hospital rated their hospital as one of the best in the country as a place to work or receive treatment in the latest national NHS Staff Survey.</p> <p>Frimley Park Hospital is proud to host a Ministry of Defence Hospital Unit with military surgical, medical and nursing personnel fully integrated with the hospital's NHS staff providing care to patients in all specialties.</p>
<p>Information on Hospital Sites</p>	<p>Frimley Park Hospital is one of the sites making up Frimley Health NHS Foundation Trust which also incorporates Wexham Park and Heatherwood hospitals.</p>

	Frimley Park Hospital is 5 minutes walk from Frimley with the usual local amenities including a supermarket and a high street with shops, restaurants, chemist, post office and pub. Nearby Camberley, Guildford, Farnham and Windsor are easily accessible with more nightlife and cultural activities.
Transport Links	There is a fast train service to London from near by Farnborough. There is a local station in Frimley and an extensive bus network stops at the hospital. The hospital is situated just off junction 4 of the M3 with quick and easy access to London by car or train and is roughly an hour from the south coast.
Parking	There is on-site parking for doctors at a modest cost.
Local Amenities	Camberley (approx 3 miles) has all facilities associated with a busy town and an entertainment hub for eating, cinema, and bowling.
Postgraduate Centre	There is an excellent purpose built Postgraduate Education Centre which is the hub for Medical Staff. The PGEC has its own restaurant which is well used by medical staff in the Hospital and local General Practitioners. All of the seminar rooms are well furnished and equipped. The Centre also has a purpose built simulation suite. The lecture theatre, skills room and seminar rooms all have live links to theatres, endoscopy and radiology.
Library facilities	The Health Services library is situated above the PGEC. It provides a wide range of services and also houses a PC suite. There is 24 hour access to the HSL and its IT.
IT Facilities	There are facilities in PGEC & HSL.
Other facilities	There is an on-site nursery available to staff.
Doctors' Mess	There is a well equipped, purpose built doctor's mess in the middle of the hospital grounds. A small on-site gym is available to staff.
Trainee Life	<p>Every year we publish the Rough Guide to Foundation Training at Frimley Park. This has all the most up-to-date tips from out going Foundation doctors to support each training post.</p> <p>There is a social induction in early August for all new Foundation doctors, involving evening events such as a BBQ and an evening of bowling, offering a chance to meet your peers.</p>

Individual Placement Descriptor***

Trust	SURREY AND BORDERS PARTNERSHIP NHS FOUNDATION TRUST
Site	ABRAHAM COWLEY UNIT, CHERTSEY, KT16 0AE.
Intrepid Post Code (or local post number if Intrepid N/A)	tbc
Programme Codes	tbc
Placement details (i.e. the specialty and sub-specialty)	PSYCHIATRY WORKING AGE ADULTS INPATIENTS AND HOME TREATMENT TEAM
Department	The Surrey and Borders Partnership NHS Trust was created on April 1, 2005, to provide Psychiatric and Learning Disability services for the whole county of Surrey as well as part of North East Hampshire and Croydon, and achieved Foundation status on May 1, 2008. The Abraham Cowley Unit covers a population of circa 845,000 in the North West of the Trust. www.sabp.nhs.uk .
Type of work to expect and learning opportunities	<p>Inpatients: This post is based at the Abraham Cowley Unit which provides acute care for patients with a range of severe mental disorders. Our team covers the GP practices in the Borough of Waverly with a population of approximately 103,000 plus half of the Farnham practices (23,000), resulting in a total population circa 126,000. Alongside the acute teams there is an established Community Mental Health Recovery Service for Waverley based in Godalming. We have a busy unit with fantastic opportunities for multi-agency working. The working environment is friendly and most junior doctors settle in quickly and enjoy working in this post. We also have a GP ST2 on the ward as part of the team and a middle grade who is based on the ward 1.5 days.</p> <p>Duties are primarily ward-based and the post holder is responsible for all Waverley inpatients. Ward work includes assessing inpatient admissions, regular communication meetings with the inpatient team, intensive experience of managing psychiatric inpatients with a wide variety of illnesses, and working as part of a multi-disciplinary team.</p> <p>Home Treatment Team: The post will also provide some experience of working with a Home Treatment Team (HTT). The HTT is a community team which attempts to divert clients from hospital admission or facilitate their early discharge and manages them in their own homes. The non-doctor members of the team work on a shift system covering 24 hours a day, 365 days a year. Patients stay within the team for between a few days to two or three months, initially being seen on a daily or twice daily basis. A middle grade has primary responsibility for the HTT but the FY2 would be expected to actively follow up some patients. The FY2 can also take part in home visits and clinical discussions as well as attend the HTT Handover Meeting at Farnham Road Hospital on Tuesdays at 09.30 hours under the supervision</p>

	<p>of a consultant. Currently the HTT is based at Farnham Road Hospital in Guildford whereas the locality's inpatient beds are at the Abraham Cowley Unit in Chertsey. This is a temporary redeployment of Waverley beds in line with a major redevelopment project to create a modern state-of-the-art mental health inpatient unit at the Farnham Road Hospital site. Work commenced in October 2013 with a projected completion date of October 2015, and full service transfer by December 2015, whereupon the post's base will revert to Farnham Road Hospital.</p> <p>CMHRS related work: There is no outpatient clinic with the team but there is the possibility of arranging a few days shadowing in the outpatient team.</p> <p>Education and Training</p> <ul style="list-style-type: none"> • Individual supervision will be provided by the approved Named Clinical Supervisor for one hour per week. • The hospital teaching programme runs on a Friday morning. Trainees will be expected to attend regularly and at times present at Journal Clubs and Case Presentations. • Attendance at weekly Balint Group on Friday morning is mandatory. • Attendance at the FPH FY2 Teaching Programme one day a month from September to May inclusive is mandatory, dates TBA. • All Foundation study leave is administered for cost and appropriateness by FPH but study leave forms must be approved by Dr. Sirohi for absence and, also, by Maggie Reynolds, before final submission to FPH. <p>Research and Quality Improvement: Trainees are encouraged to undertake a Quality Improvement Project during their post. Opportunities for research may be available and will be tailored to individual trainees needs</p>
<p>Where the placement is based</p>	<p>Wards at Abraham Cowley Unit, Holloway Hill, Lyne, Chertsey, KT16 0AE. Home Treatment Team at Farnham Road Hospital, Guildford, GU2 7LX. Both relocating to Farnham Road Hospital, Guildford, 2015/2016. F2 teaching days based at FPH</p>
<p>Clinical supervisor(s) for the placement</p>	<p>DR. SHEETAL SIROHI, CONSULTANT PSYCHIATRIST, WAA.</p>
<p>Main duties of the placement</p>	<p>Core Skills:</p> <ul style="list-style-type: none"> • Comprehensive assessment and clerking of admissions. • Mental state examinations. • Cognitive screening assessment. • Completing physical examinations and arranging relevant investigations. • Risk assessments. • Making a concise case presentation and initial management plan for a common psychiatric disorder. • Writing accurate concise reports/assessment/referrals. • Daily ward handovers at 9.30am with nursing staff. • Weekly MDT meetings on the ward at 10:00 hours

	<ul style="list-style-type: none"> • Good communication and team working skills. • Attending ward reviews daily with consultant/middle grade. • Attending Care Programme Approach (CPA) or professional meetings. • Liaison with carers, family members, GPs or Community Teams. • Clear documentation as per Trust RIO standards and GMC guidelines for all work, including admission and discharge summaries. • Completing the Medication/ Drug cards clearly. • Understanding the Mental Health Act and its terminology; especially the use of s.5 (2) and s.136 Assessments.
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>MONDAY: AM: Ward Reviews PM: Ward Work / CPAs</p> <p>TUESDAY AM: Ward Reviews with middle grade OR HTT Handover Meeting, Farnham Road Hospital as agreed with Consultant. PM: Ward Work</p> <p>WEDNESDAY AM: Ward Work / CPAs. PM: 15.00 – 16.00 Supervision with Dr. Sirohi Ward Work / CPAs</p> <p>THURSDAY AM: 10.00 Ward MDT Meeting, Clare Ward PM: Admin / Ad Hoc HTT Visits</p> <p>FRIDAY AM: 9.00 – 10.00 On-Call Discussion Group, 10.00 – 11.00 Balint Group. Term time only: Academic Meeting Programme 11.15 – 12.15 Journal Club / Topic Discussion 12.30 – 1.30 Case Presentation / External Speaker. 14.00 – Ward Work / Admin</p>
