Pairing trainee managers or pharmacists and doctors – an initiative to facilitate joint working for better patient care in Kent Surrey and Sussex

We are looking for F2 doctors to apply for this exciting opportunity. You will be paired with either a new NHS graduate management trainee who will be working in your Trust or a recently qualified pharmacist. You will undertake a patient care improvement project together with your colleague and will be supported by a mentor and a facilitated learning set over the course of the year.

We anticipate that this experience will help you learn leadership skills that are now part of the requirement for all doctors in training. It will help you to work effectively with NHS workers in other disciplines and to understand the benefits of collaboration.

If you are interested, please tell us why on the attached application form and give it to your Foundation School administrator. There will usually only be one pair per Trust and Foundation doctors will be chosen through a competitive process organised by the leadership tutors.
Name

Programme

In no more than 250 words please tell us why you would like this opportunity and what you would hope to gain from it.

Applications must be in by 10 am 2\textsuperscript{nd} September. All candidates will be informed who has been selected by 16\textsuperscript{th} September.
